

Teachers of Secondary Science

The International School @ ParkCity (ISP), located in the exclusive residential area of Desa ParkCity (www.desaparkcity.com), Kuala Lumpur, opened in September 2011 and quickly established itself as a special and dynamic place for children to learn. In October 2017, we were awarded The International Schools Quality Mark (ISQM) at Gold Level and were identified as being outstanding in all 8 standards during the accreditation visit.

We recognise that the calibre of the staff that we appoint is paramount to creating our unique learning environment. As we grow, we seek to recruit people who will complement our existing staff in such a way that we continue to learn from each other's individual qualities and experiences.

We are inviting applications from suitably qualified Secondary Science Teachers to join our outstanding team from August 2018. Applicants for the positions should:

- have knowledge and experience of teaching some or all of the following: the Key Stage 3 National Curriculum for England, IGCSEs and A Levels
- have excellent communication skills and the ability to work with diverse groups of colleagues, parents and students.
- possess humour, energy and the ability to positively contribute to the development of our school.

The ability to teach Physics IGCSE and A Level is desirable but not essential.

To find out more about our school and this exciting opportunity to join the dynamic team at ISP, please visit our website at www.isp.edu.my.

How do I apply and what information shall I include in my application?

- Clearly state the position that you are applying for.
- Include a letter of application (maximum two sides of A4).
- Include your Curriculum Vitae, with a recent photograph and details of any dependents.
- Include the email contact details of 3 referees, at least one of whom must be your current employer.
- Email your applications to Mr Andrew Dalton, principal@isp.edu.my

Applications will be considered until the post is filled.

The International School @ ParkCity is committed to ensuring that all students within the ISP community are kept safe and free from harm as a result of abuse or neglect. Child Protection is the responsibility of all members of the school community, by applying for employment at The International School @ ParkCity you are:

- *Declaring that you are able to work with students in a way that promotes and safeguards their safety and welfare.*
- *Declaring that there is no reason that would prevent you from working with children at our school.*
- *Supportive of appropriate background checks being made.*

Job Description – Science Teacher

We are seeking to appoint a Science teacher who is capable of teaching IGCSE and A-Level.

Main Responsibilities

- Support the work of the Science Department to ensure the highest possible levels of achievement.
- Plan lessons in accordance with schemes of work
- Contribute to the development, evaluation and monitoring of policies, syllabuses and schemes of work
- Uphold high standards of preparation, teaching and discipline.
- Use ICT within the curriculum
- Contribute to departmental activity beyond the curriculum
- Establishing high and appropriate expectations for learning, motivation and presentation of work
- Set and mark homework in accordance with school policy
- Provide constructive oral and written feedback to students with clear targets
- Keep parents informed of student progress, including at Parent-Teacher Conferences
- Liaising with the Student Support Team with regard to individual students who may have exceptional needs, to ensure that those needs are understood, planned for and met.
- Attending and contributing to meetings of a professional nature as and when required.
- Contributing to the strengthening of the parent-teacher partnership in individual and whole school initiatives as and when required.
- Be prepared to take on a pastoral role in the school in the form of a Form Tutor, and fulfilling the responsibilities of that position.
- Developing cross-curricular links and providing opportunities for students to develop and apply their Science skills.

- Making a positive contribution to the development of the School.
- Actively supporting the ethos of the school.

Other Responsibilities

- Actively support and adhere to the Child Protection Policy, including attending annual training.
